## ABOUT US

Thermo insulated products are an essential accessory when you're lazily chilling at home or travelling to work or out on a long drive on your holidays. Stainless steel vacuum insulation virtually eliminates change in temperature by creating an airless vacuum space between two stainless steel walls. Cello range of stainless steel products come with a unique VACUSTEEL TECHNOLOGY - a high quality insulation layer that provides better performance on which you can depend to keep your beverages hotter or colder upto 24 hours a day, under ideal conditions.

Cello is the leading manufacturer of insulated food and beverage containers, for over 50 years and a trusted household name in Thermoware. Cello is one of the leaders in the industry in new product development with its knowledge and expertise in insulation having launched a wide range of products in the stainless steel category such as Flasks, Lunch Carriers, Casseroles, Sports Bottles, Tea Flasks, Soup Jars, Kids Collection, Travel Collection and much more. Cello products are manufactured with the best quality material and undergoes rigorous quality inspection to ensure that each of its final product is not only durable but conforms to the highest material and performance standards.

Truly, a *Companion for Life*.

## VACUSTEEL TECHNOLOGY

Cello uses 18/8 high grade premium quality stainless steel and it has a 'Thermoseal' layer with copper coating to give you one of the best performances for heat retention. Vacusteel Technology is this unique collaboration of steel and vacuum for superior insulation, which allows the beverage to remain hot or cold 24 hours a day.
