

The Planet is hurting , Time is Ticking ,

Its Time we 'GO GREEN'

With it's ECO-FELT Range!

What is ECO-FELT?

When PET flakes are used as the raw material for the production of felt that would otherwise be made of polyester the produced fabric is termed as eco-felt. This helps reduce the plastic waste that is left to decompose. We try to up cycle this waste and recreate them into fashion and lifestyle products which can be used for a longer duration .
